A UML class diagram illustrating inheritance. At the top left is the base class 'Okular::Action'. To its right, a vertical line descends from the level of the base class, with eight horizontal lines branching off to the right. Each horizontal line connects to a subclass box. The subclasses, from top to bottom, are: 'Okular::BrowseAction', 'Okular::DocumentAction', 'Okular::ExecuteAction', 'Okular::GotoAction', 'Okular::MovieAction', 'Okular::RenditionAction', 'Okular::ScriptAction', and 'Okular::SoundAction'. All boxes have a black border and white background.

Okular::BrowseAction

Okular::DocumentAction

Okular::ExecuteAction

Okular::GotoAction

Okular::MovieAction

Okular::RenditionAction

Okular::ScriptAction

Okular::SoundAction
