

QWidget

Okular::DocumentObserver

TOC

```
classDiagram
    class QWidget
    class Okular_DocumentObserver["Okular::DocumentObserver"]
    class TOC
    QWidget <|-- TOC
    Okular_DocumentObserver <|-- TOC
```

The diagram illustrates a class hierarchy where the TOC class inherits from both QWidget and Okular::DocumentObserver. This is represented by two horizontal boxes at the top, one for QWidget on the left and one for Okular::DocumentObserver on the right. Below them is a third box labeled TOC. A horizontal line connects the bottom of the QWidget box to the bottom of the Okular::DocumentObserver box. From the center of this horizontal line, a vertical line extends downwards to the top of the TOC box. From the left side of this vertical line, an arrow points upwards to the bottom of the QWidget box. Similarly, from the right side of the vertical line, an arrow points upwards to the bottom of the Okular::DocumentObserver box.
